DC SEEPZ has informed that the request of developer for duty free procurement of Diesel/Fuel required for default authorized operations was considered by the Approval Committee in its meeting held on 09.03.2011. During the meeting the representative of the developer informed that the Diesel/Fuel is required for consumption machinery, Earth moving equipments, material handling equipments etc for default authorized operation i.e. creation of roads in the processing area.

The Committee noted that the references quoted by the developer in their application dated 21.02.2011 including the reference to Instruction No. 49 dated 12.03.2010 are pertaining to FTWZ.

The committee discussed the definitions of “manufacture and consumables” Under SEZ Act and Rules in relation with default authorized operations which are as follows:-

1. Manufacture as per Section 2 (r) of SEZ Act, 2005

“Manufacture” means to make, produce, fabricate, assemble, process or bring into existence, by hand or by machine, a new product having a distinctive name, character or use and shall include processes such as refrigeration, cutting, polishing, blending, repair, remaking, re-engineering and includes agriculture, aquaculture, animal husbandry, floriculture, horticulture, pisciculture, poultry, sericulture, viticulture and mining.

2. Consumables as per Section 2 (g) of SEZ Rules, 2006

“Consumables” means any item, (including fuels, high speed diesel oil, light diesel oil and other such petroleum products) which is required for a manufacturing process, which may or may not be substantially or totally consumed during a manufacturing process but does not necessarily form part of the end product.

The committee was of the opinion that considering the creation of roads as manufacture and permitting Diesel for the same would not fall under the definition of manufacture. The definition of consumables relates to items used in the manufacturing process and since creating roads cannot be considered as manufacture, after detailed deliberation, the Committee decided to refer the request of the developer for duty free procurement of Diesel/Fuel to BoA for consideration. Accordingly, the request is placed before the BoA for consideration.

Item No. 46.46: Request of SEZ units for import of prohibited items

(ii) Request of M/s. Southern Online Biotechnologies Limited, a Unit in APIIC SEZ, at Atchutapuram Mandal, Visakhapatnam, Andhra Pradesh for import of used cooking oil

M/s. Southern Online Biotechnologies Limited has been granted LoP on 14.12.2007 for manufacture of Bio Diesel and its by-products Glycerin, Residue. The unit so far has made an investment of Rs. 93 crores. The unit had commenced production on 9th September 2010 and has

made exports to the tune of Rs. 20 lakhs. The unit has stated that it has been importing Crude Palm Oil (CPO) a major Raw Material for manufacture of Biodiesel. The unit has stated that the current prices of the CPO have scaled very high levels and they are not in a position to reach the break-even point and the Biodiesel manufacturing units are suffering a severe setback because of the price fluctuations of CPO in the international market.

In order to compete with the other Biodiesel manufacturing units, the unit had tried other alternatives for manufacture of Biodiesel. In this connection, they have come up with an idea of manufacturing Biodiesel with alternative raw material i.e. used cooking oil. Used cooking oil is cheaper and is otherwise of no use, hence utilizing used cooking oil as raw material helps the unit in manufacturing Biodiesel at a cheaper cost which can compete with other units successfully. The unit has, therefore, requested for approval for importing cooking oil. The unit has also stated that the imported cooking oil will be used exclusively for export of the biodiesel manufactured from it.

As per ITC (HS) Classifications of Export & Import items like used cooking oil is covered under 1518 00 40 which is a prohibited item for Import. The unit has requested for permission to import the prohibited item for manufacture of Biodiesel.

As per an amendment in the SEZ Rules notified on 7th September 2010 items prohibited for import can be procured by a Special Economic Zone unit or Developer from a place outside India to the Special Economic Zone with the prior approval of Board of Approval". DC APSEZ has, therefore, recommended the proposal and has informed that Andhra Pradesh Pollution Control Board has given its clearance for utilization of used cooking oil for its processing/manufacturing purpose.

DC has also informed that the matter was discussed at length in the UAC and it was observed that trial production of the unit has been deferred for the last two months as started by them. It was then proposed that a Bank Guarantee may be taken for Rs. 5 crores against liability of Rs. 2 crores for a period of six months both for de-bonding of the unit and de-notification of the developer and this may be considered subject to approval of the BoA. DC FSEZ, has, therefore, requested to place the matter before the BoA.
